**Subject:** Update on Oregon Tribal Consultation Letters

.....  
>>>>>

Hi Martha,

Bella emailed the letters to the tribes. I emailed copies of the tribal consultation invitation letters to you, Tony Barber, Kristine Carre and Jenny Wu. I forgot to include Kristine in the first few letters so emailed them separately. I also emailed an example letter to Don Yon from DEQ and printed copies for the chrono file.

Don Yon already received comments from the Confederated Tribes of the Grande Ronde. See below.

Hi Dave,

I emailed copies to Tony Barber, Martha Turvey, Kristine Carre and Jenny Wu. Emailed an example letter to Don Yon from DEQ. Also printed copies for the chrono file.

Warning: Do not be surprised if you receive calls. I checked Martha's voice mail message and she forgot to update it when she Ex. 6 - Personal Privacy (message from last week in July). I also do not think she updated her email either as when I forwarded the letters, I did not get any emails indicating Ex. 6 - Personal Privacy Should have thought to check before finalizing these letters. Oh well.

Don Yon already received comments from the Confederated Tribes of the Grande Ronde. See below.

Hi Megan-- thanks for your note below. I appreciate your feedback and careful review of our draft plan. I am looking into your question and will get back to you when I learn more and have answers.

Best-

Christine

Subject: FW: DEQ's Draft Nonpoint Source Management Program Plan out for public comment

Hello Christine,

My name is Meagan Flier, and I am the environmental resources specialist at the Confederated Tribes of Grand Ronde. As the Tribe's environmental resources specialist I frequently review state and federal actions for potential impact to tribal property and resources within our ceded lands, and as such I have reviewed the DEQ's draft nonpoint source management plan. Based on my initial review, I do have one concern regarding the prioritization of waterbodies as stated within the draft management plan.

My concern is that the plan does not address how it prioritizes or whether it considers underserved communities when identifying and prioritizing impaired waterbodies and watersheds. The plan states that "The Integrated Report provides a comprehensive evaluation of water quality throughout the state. The NPS Management Program uses information from the Integrated Report and the 303(d) list of impaired waters to identify the waters and watersheds where pollutants are likely related to nonpoint sources in the watersheds. DEQ then can focus and prioritize 319 program activities to prevent, control, and eliminate NPS pollution." Nowhere does the plan address underserved or tribal communities that may be more effected by NPS pollution in these listed waters than other areas/communities. I am not sure that prioritization by adjacency to underserved communities can be viably implemented into the plan, but I was wondering if such a prioritization was considered in the writing of the draft and whether said consideration might be feasibly implemented into the final plan?

Thank you for the opportunity to provide comment, and please feel free to contact me with any questions regarding the above comments and concerns at any time.

Sincerely,

Meagan Flier, Environmental Resources Specialist

**Subject:** DEQ's Draft Nonpoint Source Management Program Plan out for public comment

Hi All-

Hope this note reaches you well and you all have been enjoying the long summer days (the heat and fires aside!).

DEQ is updating our its existing Nonpoint Source plan in our water program (under Section 319 of the Clean Water Act). DEQ's last plan was completed in October 2000. EPA now requires each state's nonpoint source plan to be updated every five years, thus this note to you all.

The draft plan can be found at: <http://www.deq.state.or.us/wq/nonpoint/plan.htm>

The plan is out for public review until September 5<sup>th</sup>. The public notice can be found at: <http://www.deq.state.or.us/news/publicnotices/PN.asp>

If you or your team have any questions or would like to talk more about it, please let me know. I plan to highlight it at our natural Resources Cluster meeting on Wednesday also.

Best to you and yours-

Christine

**Subject:** Oregon consultation letters

Hi Jayne, Thank you for getting the letters out. Being timely with consultation letters is effecting the timing of our final actions significantly. Bella asked me if others need to be cc'd (e.g., tribal office, OOO) and I told her to just send copy to you and you would decide and send to others as needed.

thanks
